STATEMENT OF SUBSTANCE OF INTERVIEW

Sir:

In response to the requirement in 37 C.F.R. §1.2, 37 C.F.R. §1.133, and MPEP §713.04, that Applicants provide a statement of the substance of an interview, Applicants hereby submit the following summary.

Applicants gratefully acknowledge Examiner Ngo for taking time from his busy schedule to conduct a telephone interview on June 13, 2007, for the above-referenced Application. The interview was courteous and professional, and it is believed by Applicants' representative that prosecution has been advanced because of this interview.

Concerning the substance of the interview, co-inventor Gustavson presented a brief summary of the present invention, during which it was also indicated that the present invention clearly differed from the simple transposition processing of Lao in that the preprocessing result of the present invention is intended for repetitive retrieval during the actual linear algebra subroutine processing. The Examiner had no opinion on this asserted difference.

S/N: 10/671,888

Docket: YOR920030169US1 (YOR.463)

There was no agreement reached during this interview, although the Examiner stated that he thought the non-statutory subject matter rejection should also be maintained.

Respectfully submitted,

Date: June 20, 2007
